

Lancaster County Fire Chiefs Association Standards Committee Meeting

Date: February 9, 2012

Time: 7:00pm

Adjournment: 8:30pm

Location: LCPSTC

Attendance: Joe Mohr, Bill Gross, Jeff Martin, Tim Cox, Rick Harrison

Business

Thank you to Joe Mohr for joining the committee and taking over as the chair. His email address is jmohr5775@comcast.net

Chairman Mohr reported Phil and Eric are working on the Countywide equipment inventory list. He also reported Phil will be sending copies of resource typing to the committee members for review. The committee may need to create more for use in this County. Joe also reported Brush 903, Brush 5-11, and Tanker 5-11 have been inspected and approved.

Jeff suggested the committee review the current Mayday standard. His main concern is the changing of channels during a Mayday due to the radios themselves, apparatus repeaters, and interior crew locations. After some discussion, it was decided to revisit this at the next meeting.

Committee members are advised to review the Apparatus/Equipment Inspection SOG's sent from Eric for discussion at the next meeting.

It was decided not to present the Boat Standards at the next Chief's meeting. After Rick met with the boat companies, they want a Boat designation as well as an Inflatable designation due to the different types of water rescues. Rick also requested the committee review the Brush standards concerning pump sizes.

There being no further business, the meeting was adjourned. Next meeting will be May 10, 2012 at 7pm at the LCPSTC.
